

# PUBLICATIONS OFFICER

## About me

I am a Biomed student who is looking for every excuse to leave stuDYING and go out to have fun! I love to tske photoes and then edit them as well as creating my own graphic drawings. In past I have designet our prom tickets as well as the whole instagram and was part of school newspaper. I Love that you can just take an ipad and dont have to carry tons of colours...

I am a part of small design company that is doing workshops during summer in arts field and this gave me a lot. So I know how to designe t-shirt and do advertisement on instagram.

### What I would like to do?

- regualr weekly posts about what is happening around Halls(week summary)
- make the ariving magazine about How? Whst? Where? for comming students
- maybe design workshops for students...
- designing t-shirts for residents....might be part of the Halls ball
