

# COMMUNICATIONS AND MARKETING OFFICER

## About me

I love to take photos and then edit them a bit..it always makes a big difference! During high school I was attending photography classes and had my own exhibition.

### What I would like to do?

- I love the idea about podcast and I would like to continue with that-it might be really inspiring for Halls residents
- Make beginner's photography workshop
- Cooperation with local shops(sustainable ones) close to halls-workshops and maybe discounts for them
- Connecting with companies like Avonmore to introduce those healthier options to students!
